

CHILD HEALTH RECORD

- We **must** have your child's immunization record on file before your child can start the first day.
- We need a **new** form at the beginning of each year.
- Obtain a copy of your child's shot record from your pediatrician and return it to the preschool office along with the other requested forms in the packet.
- Your child **DOES NOT** have to be examined by the doctor.
- **Be sure** to inform the office and teachers of any existing allergies or ones that may be found in the future (especially allergies to peanuts, peanut butter, nuts etc.) Allergies should be listed on the registration form.

Your pediatrician's office may fax the immunization record to 756-9818.
